

**REBUTTAL TO ARGUMENT  
AGAINST PROPOSITION 1**

Proposition 1 ensures that reproductive health care - including the right to an abortion - is protected in the State Constitution. This amendment explicitly defines in the State Constitution that people have the freedom to access abortions and contraceptives. This would prevent those rights from being taken from Californians just as it was recently stripped by the conservative U.S. Supreme Court.

Don't be misled by opponents. We can't go back.

Prop 1 does not change how or when a person can access an abortion in California.

Existing California law provides that women have the right to choose to have an abortion prior to viability, or to protect the woman's life or health. Proposition 1 will not change that.

Don't fall for scare tactics from opponents.

Prop 1 simply amends the State Constitution to prohibit interference with individual choices on reproductive health care and the fundamental right to choose to have an abortion.

Decisions about abortion and contraception are deeply personal. They are best made with a health care provider who can provide expert guidance and are bound by professional and ethical standards. Prop 1 protects that right.

Don't let California go backwards. While the U.S. Supreme Court has turned its back on science, safety and equality with a reversal of *Roe v. Wade*, Prop 1 ensures that the choice to seek comprehensive reproductive health care will always be protected in California.
